

Decision-Making in Humanitarian Funding

Thanks for helping out with my class project. This survey should take at most 2 minutes to complete. Please envision the following situation:

Imagine you have just started your new job as a financial manager at the Bill & Melinda Gates Foundation. You are excited to work in such an impactful organization with an annual budget of \$5bn to allocate to great projects helping across the globe. Your supervisor mentions that the organization usually supports about 50 projects each year. As you grab a cup of coffee in the office's kitchen, you overhear your colleagues mentioning that a disaster occurred in Haiti.

* Erforderlich

1. Would you allocate funds towards the humanitarian response of the disaster? *

Markieren Sie nur ein Oval.

☐ Yes

☐ No

2. How much (in \$ mn) would you allocate towards the disaster response? *

Since you did not get any information about the disaster, you check the news to see what happened. You get to know that a 7.1-magnitude earthquake struck the Eastern coast of Haiti.

3. Would you allocate funds towards the humanitarian response of the disaster? *

Markieren Sie nur ein Oval.

☐ Yes

☐ No

4. How much (in \$ mn) would you allocate towards the disaster response? *

You don't remember how severe the impact of a 7.1-magnitude earthquake is, so you decide to read up on the infrastructural damages. In the live-broadcast, you hear Haiti's weak infrastructure was severely damaged, with major roads blocked, electricity cut, and even the parliamentary building inaccessible.

5. Would you allocate funds towards the humanitarian response of the disaster? *

Markieren Sie nur ein Oval.

☐ Yes

☐ No

6. How much (in \$ mn) would you allocate towards the disaster response? *

You are concerned that many people must have been injured or even killed by the consequences of the earthquake. Fortunately, to everyone's surprise, only 7 people died, and about 30 are missing. The news report outlines that while it will take time to fix the infrastructural damages, the figures for injuries/deaths are not expected to rise drastically.

7. Would you allocate funds towards the humanitarian response of the disaster? *

Markieren Sie nur ein Oval.

☐ Yes

☐ No

8. How much (in \$ mn) would you allocate towards the disaster response? *
